We are all busy talking about and using the Internet, but how many of us know the history of the Internet?

Many people are surprised when they find that the Internet was set up in the 1960s. At that time, computers were large and expensive. Computer networks didn’t work well. If one computer in the network broke down, then the whole network stopped working. So a new network system had to be set up. It should be good enough to be used by many different computers. If part of the network was not working, information could be sent through another part. In this way the computer network system would keep on working all the time.

At first, the Internet was only used by the government, but in the early 1970s, universities, hospitals and banks were allowed to use it too. However, computers were

still expensive and the Internet was difficult to become cheaper and easier to use. To deal with these problems, scientists also developed software to make “surfing” the Internet more convenient and cheaper.

Today it is easy to find all kinds of information and millions of people use the Internet every day. Sending emails is more and more popular among students.

The Internet is really one of the most important parts of people's life.

- () 42. The Internet has a history of _____ years.
A. about 40 B. less than 30
C. more than 50 D. nearly 35
- () 43. Scientists set up a new network system to _____.

C. make the computer go well D. develop new software
- () 44. _____ made “surfing” the Internet more convenient.
A. Computers B. People C. Software D. Information
- () 45. Which of the following is NOT true?
A. In the 1960s the computer network system went wrong easily.
B. Computers are much cheaper than before.
C. Today the Internet is used everywhere.
D. Sending emails is still impossible among students.

People and dogs have been living together for hundreds of years. When did dogs

and people become friends? Where did dogs come from? A group of scientists tried to answer these questions. They just finished a study about the history of dogs. In the study, they looked at the DNA of dogs all over the world and found that dogs, like human, shared DNA with their family members. The scientists put together a big family tree for dogs. It went all the way back to the animal's beginning.

In this way, scientists learned about the history of dogs. The first dogs lived in Asia. They were born about 33,000 years ago. At first, there were only about 6,400 of them. Their parents were wolves.

The new study answers many questions. It raises some, too. For example, what caused wolves in Asia to become dogs all those years ago?

One idea is that their DNA slowly changed and the wolves became dogs in the end. As time went by, dogs became “man's best friends”. Or it could happen the other way around. It was possible that some started living with people before they became dogs. Living with people led to many changes to these wolves. It changed their DNA. So their offspring(后代) became dogs. In other words, it was possible that wolves were our friends before they became dogs.

By studying DNA, scientists now have a much better understanding of the history of dogs. ▲ How exactly dogs came to be our friends is still unclear.

()27. How did the scientists study the history of dogs?

- A. By living with dogs.
- B. By studying the DNA of the dogs.
- C. By studying all the animals.
- D. By making friends with the dogs.

()28. Which of the following is TRUE about the first dogs?

- A. They lived in Africa.
- B. There were born 6,400 years ago.
- C. Their parents were wolves.
- D. There were about 33,000 dogs.

()29. What does the underlined word “some” in paragraph 4 refer to?

- A. Wolves.
- B. Dogs.
- C. Ideas.
- D. Questions.

()30. Which of the following can be put in ▲?

- A. However, there is still much to learn.
- B. But we still know little about wolves' history.
- C. Because we've learned about dogs' friends.
- D. So they can explain when dogs became our friends.

二、阅读理解。(每小题 2 分,共计 30 分)

A

How do you spend your free time? Do you make good use of your free time? Let's see the free-time activities of three students.

I really enjoy running with my mother in the morning. We run three times or more a week. And every time we run for an hour, that makes me feel relaxed and positive. But I hate playing football with my brother. I think that's for boys.

——Sonia

I'm in a band at school. I can play the guitar and the piano, and my sister play the violin. So I always play music in my free time. I also love taking photos. I think photos can help us remember wonderful time and find the beauty. So I like working on the photos with a computer.

——Alex

In my free time, I mainly do two things—dance and karate(空手道). Dancing is a tradition in Brazil. I go dancing on every Wednesday and Saturday. And I also practise karate in a club with my friends. It's good for our body and health.

——Mia

()16. What is Sonia's hobby?

A. Jogging.

B. Dancing.

C. Taking photos.

D. Playing football.

()17. Which instrument can Alex play?

A. The piano.

B. The violin.

C. The guitar.

D. The *Erhu*.

()18. Which of the following is TRUE?

A. Sonia likes jogging after supper.

B. Alex's favourite music is rock music.

C. Mia takes dance classes twice a week.

D. Mia practises Karate with her best friend.

B

An elderly farmer in Anyang, Henan, set a new goal for himself. In a few months, he will finish his study in a local college. Now he is preparing for postgraduate (研究生) studies at Peking University.

Liu Yuchun, 74, took the National College Entrance Examination(高考) for five times. He finally went to Puyang College in 2020.

During his four years of study at the college, Liu learned over 4,500 English words. Having an old English-Chinese dictionary in hand, Liu said with the help of books, his dreams would come true.

“After hard study at college, now I have a plan to prepare for the postgraduate entrance exam at Peking University, studying law or economics,” he said.

Liu stayed in his hometown and built a food factory after failing in the National College Entrance Examination in 1978. In 1992, he did badly in business, and his family lost almost everything. “I have all of these experiences because I didn't study at school for enough time, so I think knowledge is important,” he said. “I think I should not spend too much time on smart phones. We should read more books and make our

dreams come true.”

- ()19. How many times did Liu take the National College Entrance Examination?
A. Three times. B. Five times. C. Four times. D. Twice.
- ()20. What happened to Liu in 1992?
A. He built a food factory. B. He went to a college.
C. He bought a smart phone. D. He had difficulty with business.
- ()21. What does Liu want to tell us in Paragraph 5?
A. The importance of knowledge.
B. The power of words.
C. The secrets of happiness.
D. The ways to use smart phones.
- ()22. Which of the following words can describe Liu best?
A. Polite. B. Hard-working.
C. Smart. D. Funny.

C

Now we have more free time than ever before, but we don't feel more relaxed. Why don't we feel that way? Because we spend too much time playing with our phones. To help you feel relaxed, it is important to use your free time in a right way. Here is my advice.

▲. Think about what you want to achieve. Do you want to get fit, learn something new or just relax? Don't worry about what you should do. Just think about what can bring you achievements.

Be creative. When we watch TV, read a book or listen to music, we are only taking things into our brains. Try to make a film by yourself. Build a model or write a blog. You will use different parts of your brains and become more active as a result.

Meet like-minded people. Everyone has different interests, so don't expect your friends to **be into** the same things as you. You can join a club and get to know people with the same interests as you.

Watch out your time. Don't let too many things about work take up your free time. If you spend too much free time checking those working messages, you won't feel relaxed after work.

Once you're fully relaxed, you can think about what you'd like to improve in your life. Want to be stronger? Learn a skill? There are many groups, clubs and classes that you can join to help you start a new life. So just get out there and enjoy yourself.

() 23. Which of the following can be put in ▲ ?

- | | |
|-------------------------|---------------------------|
| A. Set your goals. | B. Improve your health. |
| C. Solve your problems. | D. Continue your journey. |

- | | |
|--------------------|------------------------|
| A. Reading books. | B. seeing a film. |
| C. Writing a blog. | D. Listening to music. |

() 25. What's the meaning of "be into" in Paragraph 4?

- | | | | |
|---------|----------|----------|----------|
| A. Buy. | B. Like. | C. Play. | D. Feel. |
|---------|----------|----------|----------|

() 26. Which of the following shows the structure(结构) of the passage?

D

As a nature photographer, I like working outside even when it's rainy or windy. The best part of my job is to look into animals in their natural environment.

My favourite place is Yellowstone National Park. As the world's first national park, Yellowstone is famous for having many different kinds of animals, but the most famous are the bears. These huge, strong animals can live for 30 years. They are heavy, some can weigh up to 300 kilos. They can also run fast, up to 64 kilometres per hour, and are also excellent swimmers.

Last spring in Yellowstone, I walked through a dark forest. When I finally stepped out of the trees, the view was breathtaking. An eagle flew over the snowy mountains, and the mountains were reflected(映照) in a calm lake. While I was taking a photo of this amazing scene, I suddenly had a feeling that I was being watched. Slowly, I turned and saw a bear very close to me! Only metres away from me! With water falling off its thick brown hair, the bear looked back at me. Time stood still as the bear and I both waited to see who would move first. My legs started shaking. But I

still managed to take a photo. After a moment, the bear turned and ran back into the forest. When I calmed down, I looked at my camera. My most unforgettable experience was now recorded forever in it.

From time to time, I look at the photo to show respect to all animals. All of us are visitors to their world. It's really interesting and enjoyable to record by taking photos for them.

- ()27. Where are you most likely to find the passage?
- A. A travel diary.
 - B. A magazine about culture.
 - C. A science textbook.
 - D. A guidebook to Yellowstone.
- ()28. Why does the writer enjoy working outside?
- A. Because he likes rain and wind.
 - B. Because he likes beautiful landscape.
 - C. Because he likes breathing fresh air.
 - D. Because he likes watching animals in the nature.

| a. enjoyed the landscape | b. calmed down | | |
| c. met a bear | d. walked through a forest | | |
| A. abcd | B. adbc | C. dacb | D. dbac |
- ()30. What's the writer's purpose of writing this Passage?
- A. To call on people to protect animals.
 - B. To invite people to visit natural forests.
 - C. To tell people of the danger of bear attacks.
 - D. To ask people to record by taking photos.

Healthy eating is important for a healthy body and mind. Do you eat healthily? How do you eat every day? Both what we eat and how we eat are important!

For example, some people have fast food every week. It is easy and delicious! But it often has lots of salt, fat and sugar. That makes us put on weight. What's worse, it may cause heart problems later. So, it's better to cook your own meal.

Eating three meals a day is important. But some people don't have breakfast. Food gives us energy. It is easy to feel sleepy and find it hard to focus on our work if we don't eat breakfast.

Some people also eat too many sweet things. They are delicious, but they usually have much sugar. This can cause tooth problems. ▲ After all, an apple a day keeps the doctor away.

Remember: You are what you eat. Healthy eating means eating healthy food and having good eating habits.

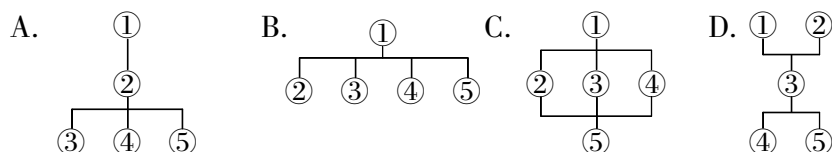

()19. According to Paragraph 2, people may _____ if they eat fast food too often.

- A. have tooth problems
- B. become fatter
- C. feel sleepy
- D. have a stomachache

()20. Which sentence can we put in “▲” in Paragraph 4?

- A. So it's unhealthy to eat too many sweet things.
- B. When you have problems, go to see a doctor.
- C. Remember not to eat too many sweet things.
- D. When you want snacks, why not have some fruit?

()21. What is the structure(结构) of the passage?

()22. In which part of the magazine can we read the text?

- A. Science.
- B. Health.
- C. Culture.
- D. Business.

C

What do animals need for growing? Many people think all life needs food,

sunlight, and other things. But it is NOT true!

The ocean is one of the unexplored places on the earth, but there is life in the dark ocean. For example, elephant fish live over 2,000 metres under the sea. They never see the sunlight but they still survive in the ocean with the help of their special bodies and colours.

Scorpions(蝎子) often live in dry places, but sometimes you can find them in grasslands or forests. They always choose dark places to live. These places give them safety during the day. This shows the animals can grow without sunlight.

Also, you can find life in very hot and very cold places. Some animals live close to hot springs. The water there can be over 350℃! However, some of ice worms(冰虫) live in deep, freezing cold oceans. These worms even eat harmful air for food!

Life is everywhere. It can live in any place on the earth. So, the next time when your mum says “Clean your room”, listen to your mum and do it. You never know what may be living under your bed!

()23. How does the writer lead into the topic of the passage in Paragraph 1?

- A. By asking questions.
- B. By showing pictures.
- C. By listing numbers.
- D. By giving examples.

()24. What does the underlined word “survive” mean in Paragraph 2?

- A. Get to sleep.
- B. Look for food.
- C. Continue to live.
- D. Attack other animals.

()25. Where does a scorpion like to live?

()26. What's the best title of this passage?

- A. “How Life Grows in Ocean”
- B. “Life in Surprising Places”
- C. “Protect the Natural World”
- D. “Find Life Under Your Bed”

D

Many people go on vacation in the golden season of October. It is becoming a popular choice among the Chinese to spend their free time. However, people's love for vacation is not something new.

yes, then sleep tourism may be a good choice for your next trip.

Sleep tourism became popular in 2020. It is a new kind of travel which focuses on rest and relaxation while travelling. More and more people are interested in sleep tourism these years. Studies show people like sleep tourism because health and happiness are more important for them. In this busy world, it is difficult for people to find time for themselves. Sleep tourism gives people a chance to break from the stress and the busy everyday life. Besides, some people want to keep their sleep routine during travelling. Breaking the routine can affect sleep. For example, going to bed late can make it hard to fall asleep. As a result, people may feel tired the next morning.

Travel companies and hotels are working together to make people travel well and sleep well. Companies are planning relaxing activities such as yoga and walking. Hotels are trying to better their environment by providing comfortable bedding, dreamy music and smart lighting. When tourists come back from the sleep tourism, they may find themselves well-rested and relaxed.

四、完型填空。(每小题 1 分,共计 15 分)

I spend a lot of time with my parents and have a good time with them. There's one thing I remember very clearly.

When I was a kid, my 36 let me help her make popcorn(爆米花) on cold winter nights. We 37 a pan, some oil and butter, and waited for the first popcorn to jump with a 38 sound. Just like we did before, we continually 39 the pan over the stove(炉子) to keep the popcorn from burning 40 the pan was full of

popcorn! Mum took it all into a big bowl and 41 some salt.

Later, we came to the living room to take a rest. Dad took some drinks 42 the fridge and sat in his chair. However, my mum, brothers and I sat on the sofa. We watched a 43 and ate the delicious popcorn.

The funny thing is that I still remember many things 44 I didn't remember the show we watched. The 45 of the popcorn, the warmth of the bowl, and the joy of being with my family are still in my mind. I felt so 46, loved and happy. We didn't have a big house, 47 cars or much money, but our love for each other was 48.

Sometimes these moments play important roles in our life. They're magical 49 and memories that last forever. So, remember to 50 these moments and the love that comes with them. They are what truly make life beautiful.

My Happy Memory

One sunny afternoon last summer, I had a happy memory. On July 15th, my family and I went to the Blue Wave Beach for a day trip.

The beach was beautiful with golden sand and clear blue water. My best friend, Tom also came along with us. It made the trip even more fun. We spent the whole day playing games, building sandcastles, and swimming in the sea. At one point, we found a crab and watched it for a while.

I felt so happy that day and all my worries were washed away by the ocean waves. This happy memory is important to me because it reminds me of the joy of spending time with loved ones and the simple pleasures of life.

Hello, everyone!

Our school will have a sports meeting next week. There will be all kinds of sports activities. You can take part in ball games like basketball, football and ping-pong. If you are good at jumping, you can sign up for the long jump and high jump. Running is also exciting for you all. If you win, you can get a medal and an award. Anyone who breaks the record will be recorded by our school. If you want to join in the match, you should take some training in your free time. And remember, "Safety comes first." The players who want to join in the event should sign up by Thursday.

Hope you all have a good time.

Dear fellow students,

A healthy diet is good for our health. Today, I propose every one of you form a good habit of eating.

So what can we do? Firstly, it's important to have a good breakfast every day, so that we have lessons

without being tired in the morning. Besides, eat as little fast food as possible, because there is too much fat and sugar in it, and they are bad for our health. We should eat more vegetables and fruit instead. What's more, it's a good idea to be careful while we are eating. Don't watch TV or read books when we are having meals.

That's all. We are looking forward to your action!

Yours,

Li Hua

W: Hey, Tom! What are your plans after school today?

M: Oh, I'm going to the science museum. I'm really good at science, and I love exploring new things.

W: That's wonderful! I'm actually pretty good at science too, but my favourite subject is art. Do you have any interest in art?

M: Well, I do like painting, especially with blue colours. It makes me feel calm. But today, I'm more interested in the science exhibition.

W: I understand. By the way, what time does the museum close?

M: It closes at 5 p.m., so we need to leave soon if we want to have enough time to explore.

W: Okay, let's meet at the school gate at 3:30 pm and take the bus together. Sound good?

M: Yeah, that works for me. I'm looking forward to seeing the new exhibits!

W: Hey Bob, you look happy today! What's new?

M: I've been having a lot of fun. I've learned to enjoy life more!

W: Enjoy life? How do you do that?

M: By doing things I like, like playing games, watching movies, and hanging out with friends.

W: That's cool. I should do that more often. I'm always working.

M: Yeah, you need to relax and have fun sometimes. Life's too short.

W: You're right. Thanks, Bob!

We've done a class survey on students' fun activities and here is the result.

According to the survey, most students love going online in their free time. And 30% of them like reading books. To my surprise, only 20% of them do exercise to relax themselves.

Fun can not only do away with our bad feelings and lift our spirits, but also help us to connect with others.

Going online is fun but not healthy, and we'd better have fun in a balanced way. So leave the screens, go outside, feel the sun on our face and jog in the fresh air.

May I have your attention, please? We will arrive at Green Lake Park very soon. It is named after the beautiful Lake, Green Lake. It is a fantastic place for tourists in summer, especially on a hot summer day like today. The air from the lake is nice and cool. The lake has a history of 500 years. People began to build houses around the lake 100 years ago. So in this park, you can have a look at the houses of all kinds and colours. In autumn and winter, this park is the best place for bird watching.

Okay, here we are. Please get off the bus. You can walk around the lake and enjoy the beauty of everything here. Also, you can take wonderful photos. Now it's three p.m. Please return to the bus in one and a half hours. Thank you.

The Great Barrier Reef

Do you know about the Great Barrier Reef? It lies along the northeastern coast of Australia. It is famous for being the world’s longest reef, which is over 2,300 kilometres long. The reef is made up of billions of corals. Besides, it is home to over 1,500 different kinds of fish. But pollution, overfishing and overtourism are getting worse each year. What’s more, warm waters are causing the corals to die.

It’s important for us to protect it. People should cut down fewer trees. Please stop overfishing. For us, we’d better choose a green way to go out.

The Rising Star of Diving Quan Hongchan

The 33 Summer Olympics came to an end in Paris. Chinese athletes achieved great success. Here I would like to introduce the “Rising Star of Diving”—Quan Hongchan.

Quan Hongchan is from Zhanjiang, Guangdong, the hometown of diving in China. She appeared to be an ordinary girl. However, her talent in diving was discovered by coach Chen Huaming. Since then, Quan started her diving career. With an optimistic spirit and a clear goal, she developed a passion for diving. Quan practised hard despite the time or weather. As she grew older, her skills improved greatly, and she won many gold medals, even breaking the world record at the Tokyo Olympics. She earned the title of “The Rising Star of Diving”.

Quan's journey as a diver showcases not only her talent but also her determination to pursuing her dreams. Let's follow her example, bravely and firmly, and write down our own wonderful chapters.

W: I'm Maggie. I like travelling. I have travelled many cities in China. But my favourite city is Hangzhou. Last October, I went to Hangzhou to visit my friends. I felt very happy when I saw them. The weather was great. The sun was in the blue sky but it was not hot. The wind was really cool. After lunch, we went out and bought lots of nice things in the big stores in Hangzhou. We also went to the beautiful West Lake and boated in the lake. How relaxing and exciting. We really enjoyed ourselves.

The spread of Love

As an old saying goes, the rose is in her hand, the flavour in mine. My following experience can prove that.

Several weeks ago, my classmate Bob was badly ill. He had to be in hospital for a long time. But his family was too poor to afford it. So I decided to raise money to help him. When I sent all the money to Bob, he and his parents were deeply moved.

Helping others makes me happy. Maybe sometimes we feel unlucky, but we should believe that life is beautiful and love will be around us forever. And I will also help more people in the future.

M: How amazing! We planted so many trees.

W: Yeah, we planted 40 trees, 10 more than Class Two.

M: Great! I can't wait to see these trees grow tall in our school.

W: It will be a small forest with many birds, and then our school will be nicer than before.

M: Of course. I think we can do more things to make our school better.

W: You are right. I'm hungry. Shall we go to the dining hall?

M: OK, let's go!

第三节 听独白,从 A、B、C 三个选项中选出最佳选项,回答问题。独白读两遍。

W: Good afternoon, everyone. Welcome to our radio program at 6:45 on Wednesday evening. I am your friend Lucy.

Today, I'd like to talk about Mount Gongga. Mount Gongga lies in the southwest of China. It is 7,556 metres high and it's the highest mountain in Sichuan Province. It's also known to local people as "King of the Sichuan Mountains". In Tibetan language, "Gong" means ice and snow and "Ga" means the colour white. So Gongga means white ice and snow mountain. In fact, Mount Gongga was not famous before 1930. However, a great passage *The Glories of Minya Konka* on a *National Geographic* magazine made it famous overnight that year. Mount Gongga is one of the most popular places for climbers. However, it is really difficult for even experienced climbers.

Dear Peter,

How is it going? I am writing to invite you to the Science Day in our school. We are going to have it in our school hall. It will start at 3 p.m. and end at 5 p.m. next Friday.

On that day, we will have a lot of fun and interesting activities. First, we will listen to a lecture about AI. Next, we will watch a fantastic robot show. There will be some human-like robots dancing at the show. After that, we may have a chance to talk with the robots. In the end, we can experience some high-tech products like VR glasses and 3D printing. It must be very interesting and I hope you can join us.

Looking forward to your early reply.

Yours,

Li Hua

W: Good evening, everyone! It's 6:15 now. Welcome to "English World". I'm Lily King. Today I'd like to share with you a touching movie, *Up*. It's a story about an old man named Carl. He ties thousands of balloons to his house to fly to South America. On the journey, he meets a boy named Russell, a funny bird, and a talking dog. Carl and Russell fight a bad man named Charles and save the bird. The story teaches us that it's never too late to take an adventure. It's a movie that makes me smile and feel inspired. Go and watch the movie. I believe that all of you will have the same feeling as me. Thank you for your listening!

Studying

Zhong Yang was a great scientist in China. He was born in Hunan Province and worked in Fudan University.

Zhong Yang spent all his time studying all kinds of plants and dedicated his life to protecting creatures in dangerous areas. He not only collected over 40 million seeds of plants, but also recorded over 30 thousand huge cypress trees. Besides, Zhong Yang cared about education and he often gave lessons to students in poor areas. It is his effort that enriched the research about animals and plants.

Zhong Yang was such a selfless and outstanding man that I admire a lot.
